Professional Summary

Full Stack Software Developer with **2.5 years of experience** building **Angular and React** applications using **JavaScript and TypeScript**, with **Node.js, Express.js, MongoDB, and Firebase**. Translates **business requirements** into practical solutions and **owns features** from implementation and testing through production delivery. Experienced in API integration, production debugging, and **performance optimization**.

Technical Skills

Frontend: Angular, React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, PrimeNG, Responsive Design
Angular: RxJS, Observables, Subject, BehaviorSubject, Reactive Forms, FormArray, Routing, Lazy Loading, Dependency Injection, HttpClient, Interceptors, OnPush Change Detection, trackBy
Backend & Data: Node.js, Express.js, RESTful APIs, Request Validation, CRUD, MongoDB, Firebase/Firestore
Tools & Practices: Git, GitHub, Agile/Scrum, CI/CD Fundamentals, Debugging, Performance Optimization, Cross-Browser Compatibility
AI Tools & Practices: Claude, OpenAI Codex, Cursor, Prompt Engineering

EXPERIENCE

BIBA Electronics Pvt. Ltd. — Software Developer **May 2026 - Present**
Project - B2B/B2C E-commerce Platform

- Expanded a corporate website into a **React.js** e-commerce platform with **reusable, responsive components** for product discovery, filtering, comparison, profiles, cart, checkout, and orders.
- Developed **Node.js and Express.js RESTful APIs** for product, user, authentication, and order workflows, with request validation, business logic, database operations, and payment/third-party integrations.
- Configured **Firebase Authentication, Firestore, and Storage** for customer sign-in, data persistence, and file management.
- **Investigated purchasing issues** across UI interactions, API responses, and stored records; tested fixes across affected workflows.
- **Owned feature delivery** from **requirement analysis** through implementation, testing, and production release.

IDCLE Tech LLP — Software Developer **Sep 2024 - May 2026**
Project - School Information Management System (SIMS)

- Developed reusable **Angular components** using **TypeScript** for a multi-tenant school management system covering Attendance, Fees, Exams, Student Registration, Leave, Holidays, Lesson Planning, and User Management.
- Built **15+ Reactive Forms** with **FormArray**, conditional fields, date validations, and file uploads to support complex data-entry workflows.
- Implemented interactive interfaces using **PrimeNG tables, dialogs, dropdowns, and calendars** for data filtering, record management, and form interactions.
- Integrated **RESTful APIs** through **HttpClient and RxJS**; implemented authentication interceptors, error handling, and role-based routing.
- Managed shared state using **Angular services, Subject, and BehaviorSubject**; handled asynchronous data flows with **switchMap** for dependent dropdowns, **debounceTime** for search, and **forkJoin** for initial data loading.
- **Analyzed requirements**, debugged UI and API integration issues, and verified complete workflows with backend developers and QA engineers.

Continual Engine India Pvt. Ltd. — Software Engineer Intern **Aug 2023 - Feb 2024**
Project - Application Workflow and Quality Validation

- Worked with **application interfaces and workflows**, gaining experience in user interactions and data flow.
- Performed **UI and data validation**, identifying issues and verifying expected results.
- Supported **functional testing, debugging, and issue reporting** to improve application reliability.

Education

B.Tech in Information Technology **2019 - 2023**
Maulana Abul Kalam Azad University of Technology, West Bengal **9.13 CGPA**

Certifications & Achievements

- Oracle Cloud Infrastructure 2025 **Certified Generative AI Professional**; **Google CloudReady Facilitator**.
- Solved **500+ DSA problems on LeetCode**; gold-level proficiency in **JavaScript and Angular (HackerRank)**.
- Completed Udemy courses in JavaScript, Angular, React, and ChatGPT Prompt Engineering.
